# Christmas

By Adrian Collischon

I'm very pleased to present The Christmas Collection 2017. This collection of menus has been created by me to include produce in season and sourced, whenever possible, from the UK.

They all embody my wish to make exciting looking and tasting food drawing styles from around the world using ingredients which meet or better our criteria for sustainability\*.

If you do not see something that matches your wishes do please let me know as I am pleased to develop bespoke menus for your occasion.

I hope very much to be able to cook for you soon.

Adrian Collischon

## A Few Kind Words

"We used Eden to cater the food for our wedding and they did a fantastic job. We initially tried a couple of different caterers which didn't really fit the bill, but once we found Eden and tasted the food we knew we were set. Eden was great and accommodated all our different suggestions and requests. The food was more than we could have ever wished for. Eternally grateful to Eden and would recommend other couples who want memorable food at their wedding or event to have a chat with Eden."

Wedding Client

"We thought the team were exceptional, the staff were very friendly and provided great service, Dante your main manager was exceptionally helpful and on top of things. The food was brilliant! Great quantities, high quality, very much what expected and nicely presented. It was highly praised by our guests... I ate more than a few of those pea ice creams! Thanks for all your help. I want to stress again that we were \*very\* happy overall with food, staff and support - thank you and to the full team"

Wedding Client

## The S Word

For us, sustainability is a big subject. It informs every decision we make and steers how we interact with the people and organisations we engage with, the world's resources we use in order to fulfil our business and the waste we produce in so doing. Chiefly our objective is to ensure that we engage with everyone fairly and honestly, additionally that we minimise both our impact on the world's resources and any harmful waste we produce.

We have achieved a lot in improving our sustainable credentials but are the first to confess that there is always more to do. It's a journey with no destination.

Below are a few things we do and would encourage all to try to do some if not all of them:

- . Send no waste to landfill, everything is recycled.
- . Buy only UK meat and fish (except crustaceans)
- . Use as much UK seasonal produce as possible
- . Minimise our water and energy use
- . Use only recycled plastic
- . Keep our own bees
- . Make our own jams, chutneys and cordials from UK produce whilst in season and in abundance
- . Always be completely honest with everyone we engage with
- . Repair rather than renew, buy 2nd hand when possible

Hugh Walker
Managing Director
